We have been licensed since August 27, 1993. Our emphasis is on alternatives to abortion and we work with the biological parents whether they place their child or choose to parent.

We have no way of knowing how long your wait will be. We ask our families to be prepared for a call at short notice, but we must also counsel patience and ask them to prepare for a wait of a year or more. While certainly less than the industry standard, our average wait time is nothing more than an indicator, and we have no way of predicating when your child will be born. We leave this in God's hands knowing the wait is worth it.

God Bless,

Leslie Howard, LMSW Executive Director
